**Block Construction**

**Star Blocks** - Use Fabrics 3 and 10 for blue star points, 17 and 18 for red star points and 19 for all star centers.

Each star block – (24 red and 24 blue) – requires 1–2” center square block, 4–1¼”x 1¼” background corner squares, 4–1¼”x 2” fly geese background rectangles and 8–red or blue 1¼”x 1¼”squares for star points.

The following directions are for 1 star block.
1. Using a mechanical pencil draw a diagonal line on the wrong side of the 8 red or blue 1¼” squares.
2. With right sides together note direction of marked line, as shown below, and align edges of the 1¼”x 2” background rectangle and the marked square. Stitch on marked line. Trim the excess red or blue fabric, leaving a ¼” seam allowance. Do not cut away background fabric.
3. Press red or blue fabric toward the corner to make a triangle. Add a second marked square to the opposite end of the same rectangle to make one flying geese unit. Unit should measure 1¼”x 2” with seams. Repeat to make 4 flying geese units.
4. Layout star block. See diagram.
5. Stitch block units into rows. Press toward arrows. Then stitch the 3 rows into a block. Star block should measure 3½”x 3½” with seams.
6. Repeat Steps 1-5 to make 48 star blocks – 24 blue and 24 red.

**Piecing a Log Cabin Block**

Each log cabin block has 3 light and dark rounds. Use the Light and Dark Pairs that were created when cutting. Each light or dark pair is used once in 6 different blocks. Refer to the diagram on page 4.

1. Using a ¼” seam stitch the shorter strip from Light Pair 1 to the top a Star block. Press away from center.
2. Following the numbers on the diagram rotate the block a quarter turn to the right and stitch the second strip from Light Pair 1 to the block. Press away from center.
3. Refer to the diagrams on the next page and continue adding strips thru #12 pressing all seams away from the center. The block should measure 8”x 8” with seams. Make 48. You will need 42 log cabin blocks for the quilt top. The extra blocks are to allow more choices for color placement when piecing the quilt. The extra 6 blocks can be added to the back of the quilt or will make a 15”x 22½” pillow to match the quilt.

**Piecing 4-Patch Blocks**

*Note: In order to ensure ease of piecing and size accuracy when piecing the alternate blocks, it is very important that these 4-patch blocks measure precisely 2" x 2" with seams. Cut and piece carefully.*

**4-Patch 1 –** F10 and F21

2. Cut a total of 180 – 1¼” segments from the 7 strip sets.

3. Align seams and stitch 2 segments together to make a 4-Patch 1 block. Press seam open. Make 90 – 4-Patch 1 blocks. Blocks should measure 2" x 2" with seams

        +

4. **4-Patch 2 –** F22 and F23

2. Cut a total of 120 – 1¼” segments from the 5 strip sets.

3. Align seams and stitch 2 segments together to make 1 4-Patch 2 block. Press seam open. Make 60 – 4-Patch 2 blocks. Blocks should measure 2" x 2" with seams

        +

Piecing the Alternate Blocks

Refer to the diagrams on page 6 for the pieces needed for each alternate block. Then follow steps below to piece each block.

1. Each center block unit begins and ends with a 4-Patch. Stitch the small quarter square triangles to opposite sides of the 3 center 4-Patch blocks and to the left of the top 4-Patch block and to the right side of the bottom 4-Patch block. Press seams toward arrows as shown in the diagram at right.

2. Join the prepared 4-Patch units. Press seams open. The center block unit should measure approximately 11¼” including seam allowance.

Add large half square triangles

3. Fold two large matching half square triangles in half to find the center and then sew triangles to opposite sides of the block center unit. Press seams toward large triangles.

Note: Fabric for half square triangles and quarter square triangles should be the same within each block. See blocks on the next page for color/fabric placement.

4. Trim and square alternate blocks to measure 8”x8” with seams.

5. Make a total of 30 assorted alternate blocks. Make 9-Block 1, 6-Block 2, 9-Block 3, 6-Block 4.

Make a total of 30. Blocks should measure 8”x8” with seams.

Add two remaining corner triangles to top and bottom of quilt top.
Outer Border

1. Open Fabric 24 to full width with the printed selvage on the left, then move slightly to the right and select a “starting” spot clip between 2 dots.

2. Count over 11 dot motifs or approximately 4¼” and clip fabric again.

3. Continuing to the right, skip 2 dots, count over 11 dot motifs or approximately 4¼” clip again. Repeat to mark 8 – 4¼” border strips. See diagram.

4. Tear the clipped fabric down the lengthwise grain of fabric to yield 8–4¼"x45" border strips.

4. Using a straight seam join two strips together end to end to yield 4–4¼"x89" border strips. Press seams open.

HINT: Since there is extra length in the border strips, you might wish to audition each border for the best alignment of the motifs before cutting the final border lengths.

4. Measure quilt top from top to bottom through the center. Cut 2 borders from the prepared border strips to that measurement. Add the strips to opposite sides of quilt. Press seams toward border.

5. Measure quilt top from side to side through the center including the borders. Cut 2 borders from remaining border strips to that measurement. Add strips to top and bottom of quilt. Press seams toward border.

Quilt top should measure 71"x82" with seams.

Finishing

1. Using a diagonal seam, join binding strips end to end. Press seams open. Fold prepared strip in half wrong sides together and press to make the binding.

2. Layer, Quilt, and Bind

Fabric Requirements

For ease of piecing, cut the following 6* fabrics into smaller pieces

Once cut, refer to the Piecing Sections on page 10 and add cut pieces to the various sections.
