ASSEMBLY INSTRUCTIONS

Unless specified otherwise, all seams are a scant ¼”.

Making Star Block Units

Select 1 background square – 5¼" x 5¼" – and 4 matching print squares – 2⅞" x 2⅞".

On the wrong side of the 2⅞" squares, draw a diagonal line from one corner to the opposing corner as shown.

With right sides together, align the 2⅞" squares in the corners of the 5¼" x 5¼" background square as shown.

Using a scant ¼" seam allowance, stitch on both sides of the drawn line.

Cut the square apart on the drawn line.

Press the seams toward the print triangle.

With right sides together, align one of the remaining 2⅞" squares on each half as shown.

Using a scant ¼" seam allowance, stitch on both sides of the drawn line.

Assemble the Star Blocks – Make 53

Select the following pieces:

- 1 set of four matching geese – 2½" x 4½"
- 1 Star Center square that matches the geese – 4½" x 4½"
- 4 background Star Corner squares – 2½" x 2½"

Lay out the pieces as shown.

Join the pieces to make three rows as shown.

Press the seams in the direction of the arrows.

Join the three rows to complete the block.

Press the seams in the direction of the arrows.

Note:
The seams are pressed in this direction so that the stars can be turned to have seams abut when the quilt top is assembled. See diagram on page 7.

The star blocks will measure 8½" x 8½".
Repeat to make 53 star blocks.

Panel Blocks

Carefully cut the panel apart by cutting in the center of the dark green background between the images in the panel.

There should be between ⅜" and ½" of the dark green border surrounding each image.

First cut and prepare the 2 large panel blocks and then select and cut 11 of your favorite small images.

Hint:
Press each image – preferably without steam.

The rolling process for fabric can pull an image out of shape, making the rectangles on a panel slightly crooked. Less than perfectly straight rectangles can be gently pulled back into shape by pressing with a little bit of steam.
Assemble Big Block Panels – Make 2

Trim both large rectangles to measure 11" x 13¾".

- With right sides together, fold the rectangle to be cut in half, matching up the inside corners of the image. Pinch to make a gentle fold, marking the approximate center of the rectangle. Do this on the width and length of the panel – on both sides.

- Line up the centers with the 5½" and 6⅞" points on a large square ruler.

- There should be between ⅜" and ½" of the colored border surrounding the image.

On one long side of the trimmed rectangle, sew 1 Big Block Panel Strip #1 – 1¾" x 13¾".

Press the seam to the background – or press it open.

Select 1 print rectangle – 2" x 13¾". Join the strip to the background Strip #1 as shown.

Press the seam to the print strip.
Block will measure 13¾" x 13¾".

Now join 1 Large Block Panel Strip #2 — 1⅞" x 13¾" — to the sides of the pieced block as shown.

Press the seams to the background strips.

Complete the block by joining 1 Large Block Panel Strip #3 — 1⅞" x 16½" — to each long side of the block as shown.

Press the seams to the background strips.
The blocks will measure 16½" x 16½".

Tip:
If there is shadowing through the background strip, trim a scant ¼" off the seam allowance of the dark fabric.
Assemble Small Panel Blocks – Make 11

Select 11 of the 16 images. As above, square-up each panel rectangle as needed.

Trim the small rectangles to measure 5½" x 6¾". As before, fold the rectangles to find the center points on all four sides. Line up the center-points with the 2½" and 3⅜" points on a large square ruler. There should be between ⅜" and ½" of the colored border surrounding the image.

On one long side of the trimmed rectangle, sew 1 Small Block Panel Strip #1 – 1" x 6¾". Horizontal Images – the strip will be on the lower edge. Vertical Images – the strip can be on either side. The sample quilt has 3 on the left, 5 on the right.

Press the seam to the background image – or press it open. Check for shadowing.

Select 1 print rectangle – 1½" x 6¾". Join the strip to the background Strip #1 as shown.

Press the seam to the print strip. Block will measure 6¾" x 6¾".

Now join 1 Small Block Panel Strip #2 – 1¾" x 6¾" – to the sides of the pieced block as shown.

Press the seams to the background strips.

Complete the block by joining 1 Small Block Panel Strip #3 – 1⅜" x 8½" – to each long side of the block as shown.

Press the seams to the background strips.

The blocks will measure 8½" x 8½".
ASSEMBLING THE QUILT TOP

Lay out the blocks as shown in the Quilt Layout Assembly.

Join the blocks to make rows. Press the seams in one direction – alternating the direction with each row.

**Note:** The two double-rows with large panel blocks are assembled with the blocks on either side pieced first.

Join the rows to complete the quilt top. Press the seams in one direction.

OUTER BORDER

Join 2 border strips – 2½” x WOF – with a diagonal seam. Press the seam open. Repeat to make four long strips.

Trim the strips as follows:

- Side border strips – 2½” x 72½”.
- Top & bottom border strips – 2½” x 68½”.

Add side borders first. Press toward border.

Then add top and bottom borders. Press toward border.

Quilt and bind as desired.

**Hint:**

Because of the pressing, the star blocks can be aligned/rotated so that the seams are abutting as shown on right.

Seams will nest if each block is rotated 90°.

This collection brings our love of the holidays to fabric and quilts! We pulled from our library of holiday greeting cards, then added a few new paintings to drum up the fun in this festive collection. The colors put our 1Canoe2 spin on traditional holiday pine cones, ornaments, reindeer and plaids.
