- Using the 10" cardboard as a template, cut down each block to 10" square.

Sashing: You can do sashing the traditional way with long white strips, but I have a hard time making sure all my blocks are in line with each other. Here's an alternate method:

- For sashing, take 15 of your blocks and sew a 1.5 x 10" strip to one side of each.
- Next, take 9 of those blocks and lay 6 aside. Take the 9 and add a 1.5 x 11.25" strip adjacent to the one you started with.
- Now you should have 9 blocks with an "L" shape of neutral fabric, 6 blocks with only one strip of neutral fabric on the bottom and one block with no other strips (as pictured below).

- Lay out the L shaped blocks in a 3 x 3 pattern, then lay out the one strip blocks (with 3 on the right, and three on the bottom). Put your empty block in the bottom right corner. Doing the sashing by this method will make sure your blocks stay squared up.

- Add a 1.5" neutral border all around, then add a 5" patterned border. Your quilt top is finished!
