

### INGREDIENTS

- · 1 Fat Eighth bundle
- 3½ yards background fabric
- 34 yard binding fabric
- · 4 yards backing fabric

## INSTRUCTIONS

From each of 30 high contrast fat eighths, cut (1) 51/2" strip; subcut the strip into (1) 51/2" square and (2) 5" squares.

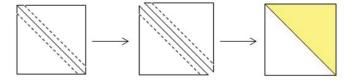

From background fabric, cut:

- (4) 4½" x WOF strips; subcut into (30) 4½" squares
- (15) 5" x WOF strips; subcut into (120) 5" squares
- (5) 5½" X WOF strips; subcut into (30) 5½" squares

From binding fabric, cut 7 strips, 2½" wide.

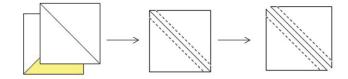

# **2** MAKE HALF SQUARE TRIANGLES (HSTs) Draw a diagonal pencil line on the wrong side of a

the 5" background square. Place right sides together with a 5" print square. Sew 1/4" away from each side of pencil line. Cut apart on the pencil line. Press each unit and trim to  $4\frac{1}{2}$ " square. Repeat to make a total of 120 Half Square Triangles.

MAKE PARTIAL QUARTER SQUARE TRIANGLES First, make HSTs as described in Step 2 using the 5½" squares of prints and background fabric. Make two HSTs of each print for a total of (60) HSTs.

Next, pair each HST with the remaining 5" background squares Center the smaller background square over the larger HST, keeping the points on two sides of the

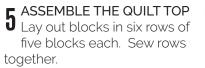

background square lined up with the seam of the HST. The only difference from traditional quarter square triangles is that your top piece is a solid square rather than another HST.

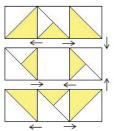

Make sure the drawn line on the background square crosses the seam line of the HST (rather than being parallel). Sew 1/4" away from each side of the marked line. Cut apart on the marked line and press towards the print fabric to create partial (QSTs). Make 4 of each print. Trim partial QSTs to 41/2" square.

 MAKE THE BLOCKS Arrange block pieces as shown. Sew in rows and press. Make 30 blocks.

Baste, quilt, and bind as desired.

### **YIELD**

The quilt finishes at approximately 60" x 72".
