

INGREDIENTS

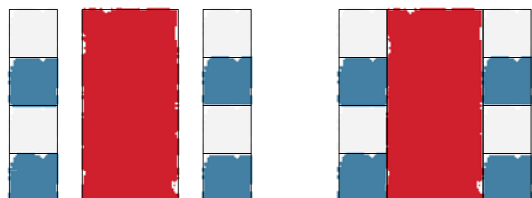

Fabric A red	(1) 4" x 7" piece (1) 6½" square (1) 3½" x 6½" piece
Fabric B blue	(2) 2" x 18" strips
Fabric C white	(2) 2" x 18" strips
Fabric D pale blue	(2) 4" x 7" pieces

INSTRUCTIONS

1 Make a strip set by joining the four 2" x 18" strips together, alternating the colors and pressing towards the navy strips. Trim the end and subcut (2) 6½" squares and (2) 2" x 6½" pieces

2 To make the door, join the 2" x 6½" strip set sections to each side of the red 3½" x 6½" piece.

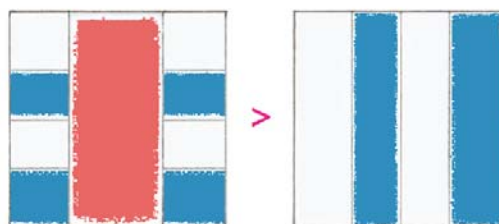

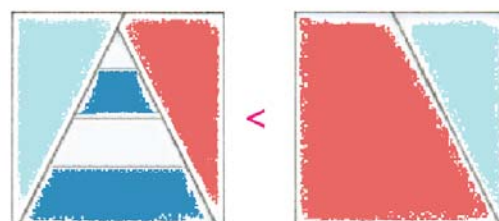

3 To make the roof first prepare a 4" x 7" pale blue piece by trimming it down with a diagonal cut, right side up, offsetting the diagonal by ½" from the bottom right-hand corner (discard the smaller portion). Then mark the 6½" red square with a placement line using the template. Position and pin a prepared side piece on the marked line and stitch ¼" away before flipping 'open' and pressing. Turn your block to the wrong side and trim the side piece using the base piece as a guide. Trim out the base square if preferred.

4 To make the gable, trim the 4" x 7" piece and join to a marked 6½" strip set square as described in step 3. Next, trim the remaining 4" x 7" pale blue piece REVERSING THE DIRECTION OF THE CUT and join to the other side of the gable unit.

5 To assemble the block, join the gable to the roof, pressing towards the gable. Then join the remaining 6½" strip set square to the door unit, pressing away from the door. Finally join the two rows together, pressing towards the roof, or open if preferred.

This block measures 12.5" square unfinished.
