| Fabric A | (12) Template A pieces |
| Fabric B | (4) Template A pieces (8) Template B pieces |
| Fabric C | (8) Template B pieces |

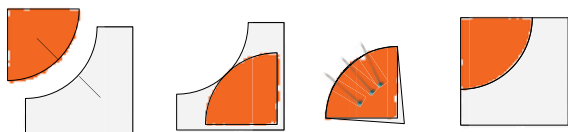

INSTRUCTIONS

CREATE TEMPLATES

Print Templates A and B. Make sure that Template A measures 3.5" along the dotted lines, so that your unit will be the correct size. You can glue the templates to thin cardboard (like a cereal box), or trace onto template plastic to make them a little easier to trace.

MAKE DRUNKARDS PATH

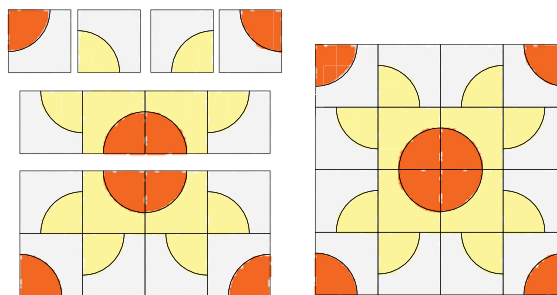

- 1 Using one white background unit, and one yellow semi-circle unit, fold each unit in half to mark the center point, as shown above.
- 2 Placing right sides together, match the center points and pin, and then pin at each corner. Continue pinning along the edges. Your unit will look very crumpled, but don't worry!
- 3 Sew along the curved edge. Go slowly and remove the pins as you sew, keeping the edges carefully aligned. I find that I have better results if I sew with the square part of the unit on top, so that I can control any puckers.
- 4 Press seam toward the background fabric. Finished unit should be 3.5".
- 5 Sew the remaining 15 units in the same manner.

ASSEMBLE BLOCK

Lay out the blocks as shown above. Sew the units together into rows.

Sew the rows together to form the block.

This block measures 12½" square unfinished.

Summer Sun Block

Key Block (1 and 8/50 times actual size)
